

LBRDC Strengthens Gender-Responsive Workplace through Gender Sensitivity Training

MANILA, Philippines – To foster a gender-responsive workplace, LBP Resources and Development Corporation (LBRDC) facilitated a Gender Sensitivity Training (GST) on June 11, 2026, at the City Garden Suites in Ermita, Manila.

The training was led by resource speaker Kimani Lester Comia, a Project Development Officer II from the DSWD Field Office IV-A. He focused on GAD concepts, differentiating between sex and gender, and exploring gender roles and stereotypes.

According to Comia, “There’s an advancement for all genders,” which highlights the equal rights mentioned throughout the discussion.

Over 30 LBRDC employees attended the training, ending with a goal from everyone to apply gender-responsive practices in their daily lives and work interactions.
